■ JETEMA successfully held the 4th Jetema Academic Meeting (JAM)

On Dec 10th, JETEMA announced the successful completion of the fourth JAM (Jetema Academic Meeting), a global academic online symposium. The JAM 4.0 was a symposium that led to online learning and in-depth discussions about minimally invasive aesthetic procedures using botulinum toxin, hyaluronic acid filler, polydioxanone threads, and the latest treatment methods using various combinations of these products. More than 1,200 medical professionals in the field of cosmetic surgery from 47 countries around the world attended and participated in real-time Q&A and heated discussions. The theme of the third online symposium was "The Latest Discussion about Minimally Invasive Aesthetic Procedures," led by five speakers from different countries and specialties. The moderator, who also gave a lecture, was Dr. Hema Sundaram, a world-renowned American dermatologist, a founder of dermatology, cosmetic, and laser society in Maryland and Virginia, and a visiting professor for the American Society for Dermatologic Surgery. Key speakers were people who lead the global medical aesthetic field. (Seung Goog Hwang, a Plastic Surgeon in South Korea, Won Lee, also a plastic surgeon from South Korea, Dalvi Humzah, a plastic surgeon from the United Kingdom, and Luciana Cirillo Maluf and Maria Claudia Issa, dermatologist from Brazil), These five experts contributed to delivering the latest science and evidence-based knowledge and techniques to the globe. JETEMA has been running web seminars for countries such as Brazil, Russia, Greece, Chile, Bulgaria, Uzbekistan, and Indonesia since 2020. The fourth

online symposium lecture subjects were 'Facial contouring with a cohesive filler for midface & chin' by Seung Goog Hwang, 'New approaches to the pyriform fossa' by Dalvi Humzah, 'Nonvascular filler complications and solutions' by Won Lee, 'How to customize facial rejuvenation with fillers' by Luciana Cirillo Maluf and 'Brazilian approach to HA filler injection techniques' by Maria Claudia Issa.

A survey taken after the symposium showed that 100% of attendees found the webinar helpful and planned to apply what they learned in the webinar. JETEMA official said, "Through JAM, JETEMA is not just trying to advertise and promote our product line, but moreover our goal is to convey and deliver the latest anatomical knowledge and new treatment methods that can be helpful in the field of treatment. We are doing our best for genuine academic exchanges, such as presenting and sharing solutions for side effects after the procedure." They also said, "This is our 4th JAM after the 1st held in May 2021. JAM is a regular global academic symposium. We will continue to contribute to the development of the international cosmetic surgery field. At the 5th JAM in 2023, JETEMA will continue to handle liaison with global doctors and try to share global views for co-development of east and west cosmetic surgery field.

epiticon® has received the CE approval

SIMPLE YET POWERFUL THREAD,
epiticon® received a CE marking

With the increasing interests in skin elasticity and younger-looking features, the demand for skin lifting by removing and/or pulling up skin tissues has steadily increased, and thread lifting has become an indispensable procedure in the cosmetic surgery market. In line with this, JETEMA launched epiticon®, a polydioxanone (PDO)

thread. epiticon® is gradually building a product pipeline with fixed type (ORIGINAL), bi-directional type (BI) and coil type (JAMBER).

e.p.t.q.® hands-on seminar in Georgia

JETEMA and JETEMA Partner invited 120 plastic surgeons from Georgia and Azerbaijan to hold a hands-on seminar on Oct 2022. The theme of the seminar was “facial anti-aging with e.p.t.q. filler” led by five speakers from different countries and specialties. The doctors attended the hands-on seminar to learn and exchange

latest filler trends and injection techniques of Korea. Currently, JETEMA is actively conveying and delivering the latest anatomical knowledges and new treatment methods that can be helpful in the field of treatment. JETEMA is doing the best to present and share filler injection techniques.

JETEMA Activities Worldwide

CPHI Germany 2022

JETEMA participated in CPHI Germany 2022. Led by JETEMA and botulinum toxin called "The Toxin", e.p.t.q.®, epiticon®, vitten®, and exolution products were promoted.

e.p.t.q.® seminar in Uzbekistan

JETEMA and Solution Plus, Uzbekistan partner, held an e.p.t.q.® seminar, with 80 doctors from Uzbekistan. Dr. Sabuhi Abilov gave a lecture about 'Innovative fillers e.p.t.q.®' with live demonstration on injection techniques around periorbital and lip area.

Visit from Thai doctors

JETEMA invited about 28 Thai plastic surgeons to visit the factory and held a seminar in November. The doctors visited Korean cosmetic clinic to learn and exchange latest filler trends and injection techniques of Korea.

JETEMA webinar in Korea

JETEMA held the 3rd JAM KOREA webinar on November 30th. Dr. Sang Bong Lee talked about 'using epiticon® for facial lifts' and Dr. Tae Geun Lee gave a lecture about 'eyelid treatment with e.p.t.q.® filler'.

vitten® seminar in Chile

Excellenza Spa, Chile partner, held vitten® web seminar, with 52 doctors from Chile. Dr. Lena Montero Ordóñez gave a lecture about 'Time to rejuvenate (using vitten® hydro plus): Blanching Techniques of vitten®'.
